

Canada UK Energy Summit: Getting to Net Zero – draft agenda

November 26th, Canada House, Trafalgar Square, London

- MC **Caroline Saunders**, British Consul General, Calgary
- 9:00 am Opening remarks by **H.E. Janice Charette**, Canadian High Commissioner
- 9:10 am Morning keynote address – speaker tbc
- 9:35 am **Regulatory frameworks that support energy transition**
Governments are working to advance the development of new technologies to combat climate change. Canada and the UK recognize the importance of creating the right conditions to foster and encourage investment into the transition to an innovative, low carbon economy. Panelists will examine recent regulatory initiatives that are supporting this transition.
- **Andrew Noseworthy**, Assistant Deputy Minister, Clean Technologies, Innovation, Science and Technology Canada
 - **Additional speakers tbc**
- Session chair: **tbc**
- 10:20 am Networking break
- 10:40 am **Decarbonisation in the oil and gas sector**
This panel will explore how companies operating in the oil and gas sector are approaching a changing energy market and adapting to the impacts of climate change policy. Companies are diversifying their asset base and investing in new technologies to reduce carbon emissions and increase efficiency. As the potential of data exploited with exponential technologies such as artificial intelligence become pervasive, their combined impact will reshape standard business architectures, creating unprecedented levels of industry dislocation, with new entrants fundamentally changing the economics of the business. The panelists will discuss the different approaches being taken within the industry.
- **Speakers tbc**
- Session chair: **tbc**
- 11:25 am **Electrification of energy systems**
The transition to a low carbon economy is creating new demands on the electricity system, for which new approaches and technologies are required. The panelists will discuss how they see the evolution power generation and of the grid and the opportunities, and challenges, associated with these changes.
- **Mark Lesinski**, President & CEO, Canadian Nuclear Laboratories
 - **Additional speakers tbc**
- Session chair: **tbc**
- 12:10 pm Keynote address – speaker tbc
- 12:30 pm Networking Luncheon
- 1:30 pm Close by **Jason Langrish**, President, The Energy Roundtable
